helped with the exhibition*

MINING INDABA

FEB 2011

Cape Town's Mining Indaba is the largest gathering of mining's most influential stakeholders and decision-makers. We were part of it by having our own exhibition.

Mining Indaba 2011 gave Minesoft the chance to make contact and develop further opportunities with other companies within the key Mining sector. Considering the current economic climate, a large number of companies were represented and a positive vibe prevailed.

SOFTWARE PRODUCT INFO

MT STOCK

Benefits of MT Stock
